

## **What to consider and what to bring on a photo-workshop**

### **Photographic Equipment:**

Compact, Bridge or DSLR cameras are all appropriate. We will work with you to achieve the best images from your equipment.

- DSLR Lenses from 24mm up to 400mm, but ideally from 50mm to 200mm;
- Extra Memory Cards: we highly recommend you bring spare cards; please consider purchasing an additional card; you don't want to run out before the end of the day! (WHF sell some formats of memory card, please check we have yours in stock before you set off).
- Spare Camera Battery, charged ready
- Battery Charger (for you to charge your battery during the lunch break)
- Filters if used: UV, Polarising
- Your Camera Manual
- Waterproof camera cover or a clear plastic bag large enough to use your camera in should it rain.

**PLEASE DO NOT bring monopods or a tripod. You will be unable to use them**

### **Optional:**

- File backup storage / Laptop – for you to download and view your images during the lunch break; this frees-up your memory card for you to re-format and use in the afternoon
- Waterproof housing for your camera and lens.

### **You and your Guest:**

You will be spending the day outside, so it is important that you (and your guest) dress accordingly to get the most out of your day and be comfortable in the process.

- Suitable outdoor footwear is vital; walking boots or wellingtons are recommended due to the soft/uneven ground, or flat shoes with a grip sole
- No open toed footwear is permitted out on site, nor are high heels appropriate
- Warm clothing/removable thinner layers depending upon the time of year
- Hair to be tied back, no long scarves, jewellery etc. that may get entangled
- Weatherproof trousers
- Waterproof jacket
- Cosy or Sun Hat depending upon weather
- Kneeling mat or knee pads
- Sun Cream (as required).

**PLEASE ALWAYS CHECK THE WEATHER BEFORE YOU SET OFF FOR THE DAY**
